All of our water toys are made from the best materials and produced by reputable, experienced manufacturers in order to provide the best quality products possible. White Knuckle is a rapidly growing brand that tries to recognize what it is that families are looking for to entertain their watersport needs and we are constantly looking to find the "next best thing".

We believe that our 2022 line up of products is our best yet and we surely believe that we have something or many things in order to accommodate your needs and provide families with countless hours of good times!

BOARDS

Our boards are a ton of fun, with great performance for the whole gang. With many different features to offer, we have helped distinguish a board for each of your water adventures, no matter how big the wave/wake. Hang ten!

GLOSSARY

2 CHANNELS

2 CHANNELS

Two molded channels for better tracking and stability. Assists in the board's grip on the water.

EVA PAD

EVA PAD

For added comfort and grip.

WOOD CORE

WOOD CORE

Helps with quality and flex, this composite wood is manufactured with high quality.

COMP. MOLDED

COMPRESSION MOLDED

Molded to be strong, your board will be durable and able to ride the waves.

FIN PACKAGE

FIN PACKAGE INCLUDED

Comes with fins that were designed for that specific board, which helps improve tracking.

GLASS BOARD

GLASS BOARD

Made with a glass construction, which is high quality and performs amazingly in the water.

BUILT-IN FINS

BUILT-IN FINS

The fins come molded into the board, for convenience and stability.

FOAM

FOAM

Constructed or contains a foam composite.

TUBES

Whether you're wanting to hang on for fun, or relax on the lake, the White Knuckle Tube line-up is packed with a ton of wicked options. Below, we have tried to help distinguish which tube is right for you by highlighting each of their benefits and features. Find yourself wanting them all? We get that.

GLOSSARY

RIDER NUMBER
The permitted number of riders that are suggested on each tube. Can vary from 1-10.

2 TOW POINTS
The tube is able to be towed in both directions with easy connection on both ends of the tube.

EASY CONNECT
Quick and easy rope connection to the tub.

VIDEO CAMERA MOUNT
Video camera mounting point, great for a POV camera to capture the wild moments.

HEAVY DUTY
Super strong and durable construction, made to withstand tough elements.

EXTRA HANDLES
These handles are an added bonus to any rider who likes to sit differently or pick a more comfortable position.

KNUCKLE PADS
Protection under nylon handles for comfort.

SEA GLIDERS

Being a classic is a title earned. When every ski offers as much of a sense of enjoyment as the first. Whether you holler "Hit it!", or give the silent nod, learned to ski at an award-winning school, or at your Great-Aunt's cousin's neighbour's cottage, the love of water skiing evokes our most cherished moments. Relive childhood memories or make new ones. Sea Gliders will take you there.
