All of our water toys are made from the best materials and produced by reputable, experienced manufacturers in order to provide the best quality products possible. White Knuckle is a rapidly growing brand that tries to recognize what it is that families are looking for to entertain their watersport needs and we are constantly looking to find the “next best thing”.

We believe that our 2023 line up of products is our best yet and we surely believe that we have something or many things in order to accommodate your needs and provide families with countless hours of good times!

BOARDS

Our boards are a ton of fun, with great performance for the whole gang. With many different features to offer, we have helped distinguish a board for each of your water adventures, no matter how big the wave/wake. Whether you're in need of a board that is versatile with tow sports, or you simply want to enjoy the ageless sport of kneeboarding, our White Knuckle line of boards can pack hours of fun into your days on the water. Hang ten!

GLOSSARY

2 CHANNELS

2 CHANNELS

Two molded channels for better tracking and stability. Assists in the board's grip on the water.

WOOD CORE

WOOD CORE

Helps with quality and flex, this composite wood is manufactured with high quality.

FIN PACKAGE

FIN PACKAGE INCLUDED

Comes with fins that were designed for that specific board, which helps improve tracking.

BUILT-IN FINS

BUILT-IN FINS

The fins come molded into the board, for convenience and stability.

EVA PAD

EVA PAD

For added comfort and grip.

COMP. MOLDED

COMPRESSION MOLDED

Molded to be strong, your board will be durable and able to ride the waves.

GLASS BOARD

GLASS BOARD

Made with a glass construction, which is high quality and performs amazingly in the water.

FOAM

FOAM

Constructed with or contains a foam composite.

BUILT-IN FINS

ABOUT

The theory behind our wakeboard design is simple. Make the best quality product, with a design that will let a new wakeboarder learn with ease and progress into an experienced advanced rider, all at the same time. Our boards come in three sizes, so as a rider grows out of one size, they can pass it down to the next up and comer, while being able to easily transitioning into a bigger, familiar size. All boards are compression molded with a PU core that provides maximum strength and a lightweight design second to none! Whether you're behind the boat landing way out in the flats, or hitting park obstacles - our wakeboards are made to last.

Sea Gliders

We're Back!

Take a ride down memory lane. Technology and performance of today, classic style from an era past.

The legendary name of Sea Gliders dates back to the 60's. The modern wooden skis back then provided the best in shape and technology and were a household name known around the competitive ski circuit, family cabin and boating community.

This still holds true with their retro look and today's technology the Sea Glider name can live on generations later and for generations to come. Grandparents today will love nothing more than to get the grandkids on the name that started the fun for them all those years ago.

Being a classic is a title earned. When every ski offers as much of a sense of enjoyment as the first. Whether you holler "Hit it!", or give the silent nod, learned to ski at an award-winning school, or at your Great-Aunt's cousin's neighbour's cottage, the love of water skiing evokes our most cherished moments. Relive childhood memories or make new ones. Sea Gliders will take you there.
